Coming Attractions:

11/11 or 18 **Water Works** with Carl Shaddix. This long awaited program (it is rumored) was cancelled by the Dept. of Homeland Security. A high level source in the administration (who asked that his name not be revealed) determined that any photos taken within the facility could fall into the hands of terrorists who would then have an opportunity to cripple the most important public works facility in the Tri-state area. Ps. We have recently learned that the suspected terrorist agent code named Blinky, may in fact be a double deep reverse agent under the employment of a highly classified off-the record group of CIA operatives. More to follow on this unfolding story of deceit and espionage.

FROM THE EDITOR'S DESK:

The digital study group has met and developed a survey that will be emailed out to the club membership. Please take a few minutes to answer the questions and email it back to me. I will compile the results and report them to the committee. This survey will be helpful during the period of time the committee has to develop recommendations that will be given in the March/April time frame.

The leaked classified report:

Mr. President:

It has come to our attention that a grave security risk exists in Cincinnati, Ohio. We believe the information we have extracted from interrogation of terrorists is credible and constitutes a direct threat to our nation's security. Action by you should be taken immediately to censure the local cell in Cincinnati that is led by a woman who the CIA believes to be a deep cover agent for Al Quida. This terrorist has established her identity as a local representative of the court and a member of a local photography club. At this time we are unsure if the photography club is related to terrorist activities but we feel the threat posed by the woman (whom we have code named Blinkey) dictates immediate action. We have learned she has attempted to infiltrate a government facility near by under the guise of conducting a photo field trip. We feel this activity falls into the significant risk category and should be terminated forthwith.

Sincerely,
Director of Home.....bla, bla, bla.
