Mentor Series

Jerry Carpenter completed the first Mentor Series, teaching the technique of black box photography. I did not participate personally but listening to the critique and looking at the sample images the students brought in, this

was a great success and a very strong demonstration that the “lecture/field-trip/critique” format worked very well. This is exactly what the club is all about: Sharing, learning and having fun with photography. Thanks to presenters and participants. Good show!

Sharon Woods Photo Burst.

The Sharon Woods show was a great success. The sales volume was very satisfying. The show set-up in one large room with black panel background looked great and, I am sure, helped the sales. Thanks to all participants for a great effort.
