Waiting for Gall

What do you want in the newsletter? Next step in the format change.

By now I will assume that you have seen the new format and by feedback that I received, most members seem to like it. So far so good. Now I would like to solicit suggestions on what should actually be in the newsletter. You will be asked to fill in a questionnaire at the next meeting,

Here are some ideas you may consider:

- Photographer of the month.
- Classified (member-to-member only)
- Field trip feedback (pictures and site critique)
- Presentation summaries
- Equipment and program links

As much as I like to add pictures to the text there is a practical file size limit. This said, I would consider a couple of pictures by the photographer of the month and from recent field trips.

I changed the file format from MS Word to PDF. And posted the newsletter on the club web site. How is this working out? Just for this month I will be sending the newsletter out both by e-mail and by a link in the club web site.

Framed or matted photos, any size, B&W or Color. Table easels provided by the club. Exhibitors are requested to staff exhibit an hour or two as a resource to visitors and security of the display.

Sign up for participation at October 5th meeting or contact Don Wiedeman at farmpond@insightbb.com.

Informal prints format

Is it OK to use “simulated” matting on Informal Prints? This is not the normal slim border but a wider 1” or more border with or without contrast lines and other effects. This question was asked on Pictorial night in September. For the benefit of the members not at the meeting, here is the answer:

“You can be as creative you like as far as the width of the border.”

It is not really an issue. The majority of prints submitted so far has been border-less or with a narrow traditional border.
