Spirits of Spring Grove at Sunrise

by Donna Loughry

HDR - 3 images (on Tripod)

Canon 60D, 18-270 mm lens,

F 11, 1.6 Sec. ISO 100,

This HDR image was processed to bring out the mist on the lake as well as emphasize what little leaf color existed.

On the Cover

A Morning in October at Spring Grove Cemetery

The other morning before the crack of dawn, I headed to Spring Grove Cemetery to photograph the tombstones, trees etc. as the sun was coming up. I headed to the west side of Geyser Lake so that I could get some of the tombstones there in silhouette against the early morning sky towards the east.

However, Geyser Lake was very, very smooth. So, picking up my tripod with my camera securely mounted on top and my Flash Zebra shutter release dangling at the side, I meandered over, around and under a tree out to the edge of Geyser Lake to get the view I wanted.

As I was going under the tree, I realized that there were head stones in neat rows in the grass.

“Pardon me, excuse me, pardon me, just passing through.” I said for anyone to listen.

I heard what sounded like the rustling of covers but it was probably just the wind in the leaves. I also thought I heard lots of humphs and harrumphs as I was passing through.

I found a place that I thought was not on top of someone’s grave on the edge of Geyser Lake. I set my camera and tripod down and started taking photographs.

After a few moments, I realized my feet were wet inside my shoes! It’s probably just the dew covered grass I had just walked through... or was it?

At one point I heard a slight hissing sound...but it turned out to be a biker out on the road with the buzz of his light so he could see where he was going.

I continued to take pictures of various views from that vantage point. Then I decided to move from that spot to another spot over by the road. This meant turning around and respectfully bothering the various spirits in their repose. As I turned around, I heard a quiet slight “Hmm.”

As I’m stepping through the area, trying to be very respectful, saying many “pardon me’s” and “excuse me’s”, I could not believe my ears to hear, “Lida Rose,

I’m home again Rose...” in glorious male 4-part Barbershop Harmony! It seemed that all of the men were singing! It was glorious! They continued until I had left that area. Then all was quiet. Not a soul in sight!

By this time I was back on the blacktop. My shoes and feet were now very, very wet!

As the sun rose towards the tree tops in the east, there were all kinds of wonderful shapes and shadows creating lots of photos to take. It was very, very interesting and beautiful!

However, I turned around to look behind me, as I often do, only to see an image that I wanted back over where the Barbershop Singers were. So I respectfully trudged back over and around the head stones with the same “Pardon me’s” and “Excuse me’s” uttered as I went through.

“Oh no, not you again!” I hear as I passed through.

After taking the photograph on the cover, I turned around to go back to my car only to hear, “Let’s give to her gang!”

Then I hear it; “Way down upon the Swami River, far, far away...” This time it is in 8-part Barbershop Harmony. Why 8 – the women joined in! It was even better in 8-part instead of 4-part Barbershop Harmony not to mention much louder!

“Thank you very much, that was quite beautiful!” I said as I turned around to bid them all adieu. And what did I see when I turned around? Nothing! What did I hear? Silence! It was all very beautiful! But my feet were *still* wet!

Note – no disrespect is meant for the dead souls in repose in Spring Grove Cemetery. I greatly enjoy their company when I am out and about photographing there. I find their presence to be peaceful and relaxing.

Photographic Opportunities for 2013

Request for Help

Request: If you know of some places, in Northern Kentucky, that are “Photogenic” (places where photographs can be taken), please e-mail me with as much information as you can find and/or tell me where I can find more information to dloughry@fuse.net.

Why am I asking this? Since I live in Cincinnati, I know the greater Cincinnati area. I know very, very few places in the Northern Kentucky area and even fewer that are “Photogenic.” And since 80% of our members live in Northern Kentucky and many of them do not like to drive into Cincinnati, I would like to include Northern Kentucky places in the Photographic Opportunities page in the newsletter and possibly on the website.

Tidbit – Did you know that of our membership 20% live north of the Ohio River? The longest drive from the south is 30 miles on interstate Highways. The longest drive from the North is 35-40 miles on interstate highways (depending on their route.) With all of the construction on the highways this summer, is it no wonder it is taking some of us an hour plus to get to our meetings. Count your blessings if you live close or the highways you take do not have construction on them. From what I can tell on the internet, we will have to deal with I-471 & I-275 issues until at least the end of 2013. I-75/71/74 is no better! – UGH!

Krohn Conservatory

This is a good place to practice but *Hand-hold only* - no Tripods

More Info - www.cincinnatiiparks.com/Krohn

Cincinnati ZOO

For more info - www.cincinnatiizoo.org

Cincinnati Museum Center

Note - You can not take photographs of the special exhibits but you can take them elsewhere – including the fascinating Rotunda.

You can also take pictures in the following permanent venues:

Cincinnati History Museum (\$\$)

Museum of Natural History and Science (\$\$)

Duke Energy Children’s Museum - remember to get permission if they are not your children. (\$\$)

Holiday Junction Train Exhibit in December 2013.

Open Mon-Sat 10AM to 5 PM & Sun 11-6 PM

Parking is \$6.00 per vehicle.

Website: www.cincymuseum.org

Newport Aquarium

Website: www.newportaquarium.com

Cincinnati Art Museum

Open Tuesday through Sunday, 11 a.m. to 5 p.m.

Closed Mondays, Thanksgiving, Christmas, New Year’s Eve, New Year’s Day, Martin Luther King Jr. Day, Presidents Day, Memorial Day, Fourth of July, and Labor Day.

No tripods and not in special exhibits. (\$ for parking)

Website: www.cincinnatiartmuseum.org

From their website:

“Photography

You are welcome to photograph and videotape in the permanent collection galleries, but lights or tripods are not permitted. Photography of temporary exhibitions, works on loan, works created after 1978, or works by living artists is not permitted.

Sketching and Copying

You are welcome to sketch with dry media.

Copyists working with wet media may obtain a free permit at the Visitor Services Desk. Sketching and copying are not permitted of temporary exhibitions, works on loan, works by living artists, or works created after 1978.”

How to Prepare An Image For Pdi Display.

Many people have asked over and over again “How do I make my image ready for PDI competition?” This is a description of how I do it which seems to be successful for me.

We all have our favorite way of processing our images - from shooting jpegs to shooting in raw files and making some adjustments ourselves. Note that, *if the image you took is bad, no amount of making adjustments will fix it.* That said, when we display an image, the amount of light, color & contrast falls off depending on the distance between the projector and the wall due to the light scatter in the air amongst other issues. Figure the distance between the projector and the wall, is about 10-15 feet.

On my computer with it's monitor, I prepare my image to my satisfaction. Everyone has their own way of preparing/correcting/editing their images with their favorite software. You can adjust these steps to fit the software you use. Note: Step 4 is an optional step that I use for my computer. The rest of the steps are pretty general.

- 1) **Backup.** Save the image as a PSD file at full size so you can redo the entry file as needed.
- 2) Because I use layers in processing my image, I flatten the image and make sure that it still looks good.
- 3) **Resize the image.** In *Photoshop*
 1. (image/image size), in “pixel dimensions”
 2. set the longest side to 750 pixels.
 3. The shorter size should automatically adjust to less than 750 pixels.

In *Photoshop Elements*:

1. Open the image to be re-sized
2. Image>Resize>Image Size
3. A box will open - The top two boxes will show the image size in pixels.
4. Change the largest size to 750.
5. If the Resample box is checked at the bottom all other adjustments will automatically adjust.
- * Review the image to make sure it looks good

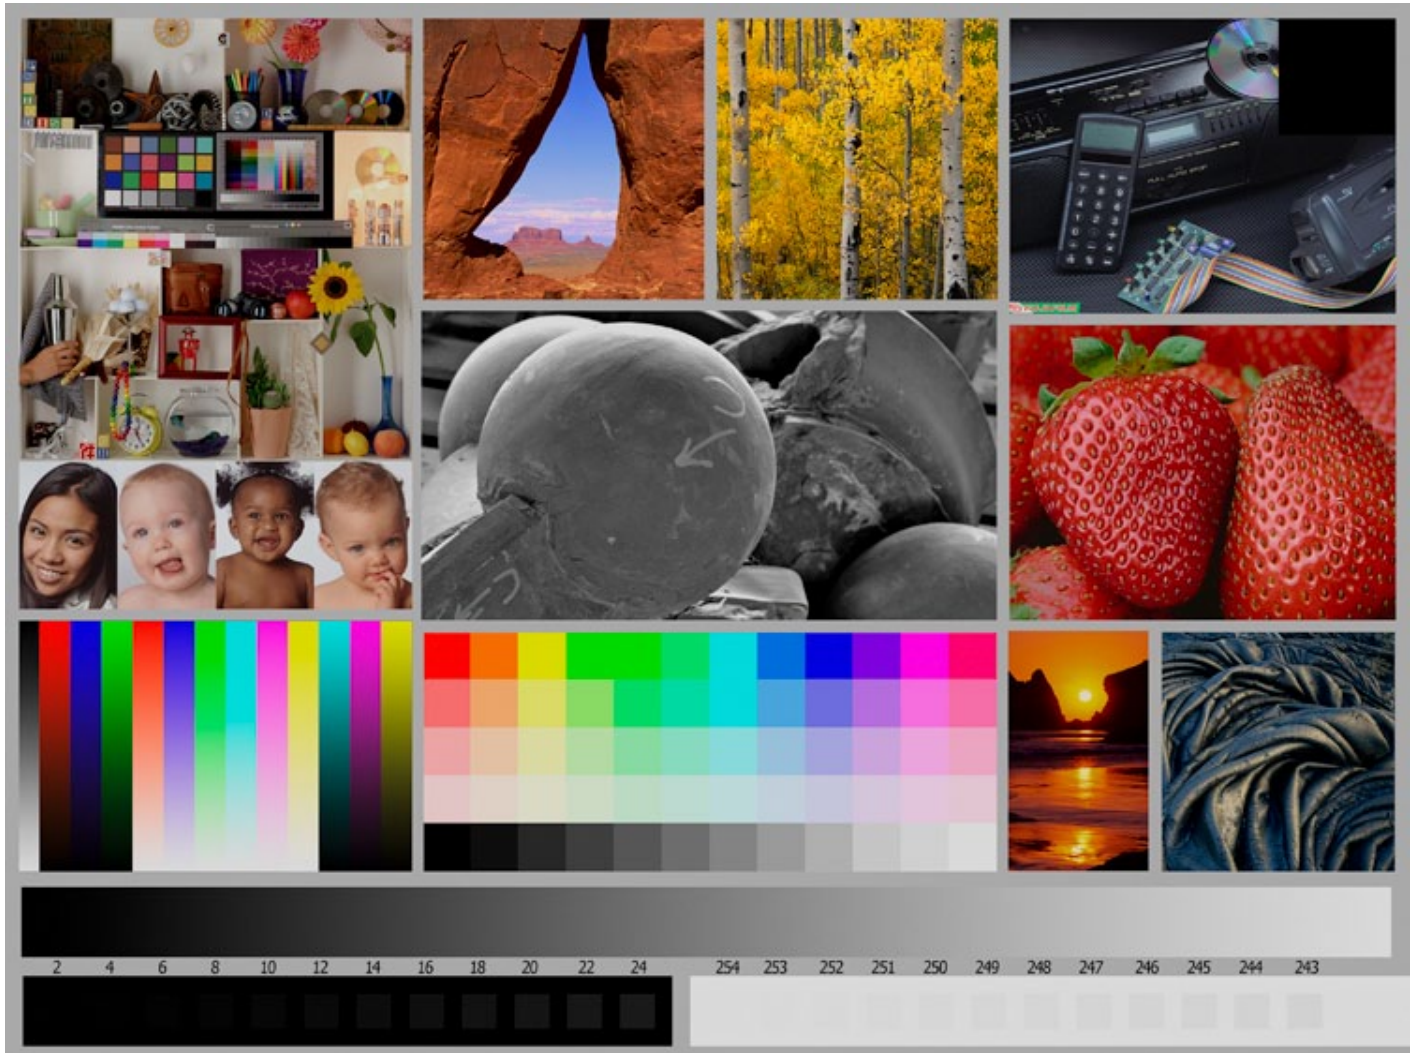

- 4) (*My optional step*) This next step may or may not need to be done with your image. But, I have found with my computer that if what is on my screen is already dark I may not need to do anything. Otherwise, I darken a light image by using a gamma setting of about .90. This is not much of a change but it has kept my images from looking dull and lifeless when projected.
- 5) **Save as a JPG.** I save the image file as a JPG file with baseline “standard” and a quality of 12 (maximum – least amount of JPG compression). JPG files are compressed by nature – you want the least amount.
 - * Remember - you can only open and save a Jpeg file 6 times before you notice pixelation and degradation of image quality.
 - * For the best display, I avoid opening and saving the Jpeg file after this point. If I need to make a correction at this point, I go back to my pre-jpg file to make the correction and then resave it as a jpg.
 - * Yes, the JPG is significantly smaller than your original file. But it is the correct size for sending to Jerry Fritsch for your competition entry.
- 6) **Review your image at 100%.** Photoshop Hint: Double click the magnifying glass in the tool bar to get 100% magnification. This is what will be displayed.

After following this procedure, you have a file that should be ready for PDI display. Send it as an attachment with title to Jerry Fritsch by Thursday Midnight before the Friday meeting.

I hope this helps everyone with the process. If you have any questions, feel free to ask.

Donna

Thanks for Bob Ihrig for the Photoshop Elements instructions.

This is the image used to calibrate the Projector for PDI images. *(Note - do not use this image in the newsletter as it has been enlarged and therefore degraded.)* The file of this image is located on our website at <http://www.tristatephotographicsociety.com/Documents/TristateProjector.jpg> Once the image is open, right click on the image and choose "save image as" to save to the directory/folder where you want to keep the image. For any other questions, see Jerry Fritsch.

October Pictorial -
Wet Subject - informal

October Nature -
Open - informal

Slides - Accomplished

- 1 Walter, Garry Spiderweb Jewels

Apr 15 th	Joy Sallee	May 1 st	Projected Image Division	Round 4

General Digital Image File Rules

Each image must have the following maximum size:

Horizontal images will be no more than 1024 pixels wide or 768 pixels tall.

Vertical images will be no more than 768 pixels tall.

(Unless your image proportions are in the exact ratio of 4 to 3, one of these dimensions will be less than the maximum.

The images will be projected as received, as long as not over the maximum.)

Save the file in jpeg format only. (There are no file size restrictions.)

sRGB color space is recommended for optimum results.

File name restrictions are only those that are designated on the entry web page. The web site will send an automatic response back to the representative, confirming entry.

If entries are submitted after the closing date for the competition, they may be refused acceptance.

PID (Projected Image Digital) *(TSPS calls them PDIs)*

Club Member Coordinator – Joy Sallee

The photographs will be digital only (traditional film images scanned into digital format or direct from digital cameras), and will meet PSA's general requirements for photographs entered into exhibitions. (The photographic work must be the maker's, commercial clip art is not allowed, etc.) The category is General, and includes Alterations.

Nature Division

Club Member Coordinator – Donna Loughry

PSA Nature Definition of Nature Photography as follows:

Nature photography is restricted to the use of the photographic process to depict observations from all branches of natural history, except anthropology and archeology, in such a fashion that a well informed person will be able to identify the subject material and to certify as to its honest presentation. The **story telling** value of a photograph **must** be weighed more than the pictorial quality while maintaining high technical quality. Human elements shall not be present, except where those human elements enhance the nature story. The presence of scientific bands, scientific tags or radio collars on wild animals is permissible. Photographs of artificially produced hybrid plants or animals, mounted specimens, or obviously set arrangements, are ineligible, as is any form of manipulation that alters the truth of the photographic statement.

No techniques that add to, relocate, replace, or remove pictorial elements except by cropping are permitted. Techniques that enhance the presentation of the photograph without changing the nature story or the pictorial content are permitted. All adjustments must appear natural. Color images may be converted to grayscale monochrome. Infrared images are not allowed.

Images are not required to meet the requirements of the

PSA InterClub Competition - cont.

PSA Definition of Wildlife. Zoo shots and Game Farm shots are eligible provided the *artificial habitat is not apparent* in the image. Since titles will be read, I recommend you *do not advertise the fact something was taken at a zoo or other controlled situation as part of the title.*

Prints Competition Division

Club Member Coordinator – Jane McBreen

There are five (5) categories:

Large Monochrome prints (LM),
Large Color prints (LC),
Small Monochrome prints (SM),
Small Color prints (SC), and
Creative Altered Reality (CAR) prints. CAR can be a mix of large and small prints. (*note special rules apply for this contact Jane McBreen.*)

It is possible for a club to enter a total of 20 prints in each Round if they competed in all five (5) categories.

Each of the four (4) prints entered must be by four (4) photographers for each category. If a club is not able to submit four prints it can submit a partial entry (example: two prints by only two different photographers).

Domestic Prints (USA & Canada) may be mounted or un-mounted; however, *un-mounted prints are preferred*. All prints must be entirely the work of the photographer.

Monochrome prints may be toned. Monochrome prints may be enhanced by the addition of a single color. Prints with two or more colors must be entered as a color print.

Small prints can be no larger than 8.5 X 12 inches including the mounting, if mounted.

Large prints can be no larger than 16 X 20 inches including the mounting, if mounted.

Creative Altered Reality prints (CAR) can be a mix as long as the 4 prints are by 4 different makers:

Large Monochrome or Large Color Prints or Small Monochrome or Small Color Prints. Small & Large prints, color and monochrome will be judged together. An entry is not limited to images created and/or modified digitally.

Prints, which have been judged in a previous competition during the year, cannot be entered in another competition during the same year.

Prints, which have been given awards in previous years, cannot be entered in the same category.

Entering clubs must send the host club sufficient return postage in the form of checks or money orders made out to the Host club Rep. The host club can hold prints until return postage has been received. Please do not send stamps. *Please take advantage of not returning prints to save postage.*

Beginning in September, we will be back to the Campbell County Extension Service Office.

November 2013 Meeting Dates:

Friday, November 01, 2013 - Pictorial - 1st Friday
Campbell County Extension Service Office.
Time: 7:00 pm

Friday November 22, 2013 - Nature - *4th* Friday
Campbell County Extension Service Office.
Time: 7:00 pm

December 2013 Meeting Dates:

Friday, December 06, 2013 - Pictorial - 1st Friday
Campbell County Extension Service Office.
Time: 7:00 pm

Friday December 20, 2013 - Nature - 3rd Friday
Campbell County Extension Service Office.
Time: 7:00 pm

Editor's Note:

Deadline for the Next Issue - December 2013
Monday, December 2, 2013.

TRISTATE PHOTOGRAPHIC SOCIETY COMPETITION CATEGORIES - 2013

Pictorial (1st meeting)		Month	Nature (2nd meeting)	
Open	Informal Prints	January	Trees	Informal Prints
Stone, Wood &/or Metal	Informal Prints	February	Open	Informal Prints
Open	Formal Prints	March	Drops &/or Droplets	Informal Prints
Eyes	Informal Prints	April	Plant Closeup(s)	Informal Prints
Open	Informal Prints	May	Open	Formal Prints
Photographic Equipment	Informal Prints	June	Open	Informal Prints
Open	Formal Prints	July	Spikes &/or Spines	Informal Prints
Americana	Informal Prints	August	Arthropods	Informal Prints
Open	Informal Prints	September	Open	Formal Prints
Wet Subject	Informal Prints	October	Open	Informal Prints
Open	Formal Prints	November	Curves	Informal Prints
Reflections	Informal Prints	December	Open	Informal Prints

Reminder:

*Limit 1 print for Competitions.
A Formal print is Matted only -
no Frames.*

*Additional print(s) will be for
Display and Discussion.*

For PDI (Projected Digital Image)

If you would like to participate in the Projected Digital Images competitions you can email them to Jerry at jafritsch01@yahoo.com up through the Thursday before each Friday meeting. They should be JPEG format (.JPG file type) with the longest side having 750 pixels or less.

You can re-size the images in your digital processing software, usually under Image, then Image Size. Change the scale to pixels (not inches or cm),

and modify the longest side (height or width) to 750. The other dimension should automatically adjust.

If you don't know how to adjust the size, or can't, feel free to email the image to Jerry. He will adjust the size. For best color results, your JPEG image should also use a sRGB color profile.

Please include your name, the image title, and if you are competing in Tyro or Advanced categories in the e-mail.

The file used to Calibrate the Projector for PDI images is located on our website at <http://www.tristatephotographicsociety.com/Documents/TristateProjector.jpg> Once the image is open, right click on the image and choose "save image as" to save to the directory/folder where you want to keep the image.

Topics for 2013 with Descriptions

P/N	2013	Topic	Description
Nature	January-13	Tree(s)	Take a photo of any tree or part of a tree.
Pictorial	February-13	Stone, Wood &/or Metal	Something stone, something metal, something wood or any combination of 2 or all three.
Nature	March-13	Drops &/or Droplets	Such as a macrophoto of a single drop through the fog-adorned gossamer web, the seaspray riding the waves, simple rain drops, dew drops on animal or plant, or a rainbow, etc.
Pictorial	April-13	Eyes	An image of the eye of an insect, plant or wild animal, living or non-living.
Nature	April-13	Plant Closeup(s)	Parts of Plants. A very close look of the some part of a plant. Preferably a Macro shot. The focus could be on the Stigma and/or the Stamens with the petals in the background.
Pictorial	June-13	Photographic Equipment	Anything related to photography including but not limited to cameras, lenses, tripods, film, memory cards, filters, flash, lighting products, store bought or homemade, etc.
Nature	July-13	Spikes &/or Spines	Anything that has spikes or spines on it! Definition of Spine: a stiff pointed plant process; such as a modified leaf or leaf part or a sharp rigid process on an animal. Definition of Spikes: a stiff, sharp-pointed piece or part such as the unbranched antler of a young deer or - a flower stalk or thorn.
Pictorial	August-13	Americana	Items or a collection of Items, related to the history, geography, folklore and cultural heritage of the United States.
Nature	August-13	Arthropod(s)	An arthropod is an invertebrate animal having an external skeleton, a segmented body, and jointed appendages. Arthropods include the insects, arachnids(spiders), crustaceans, centipedes, millipedes etc.
Pictorial	October-13	A wet subject	The subject must be visibly wet. This is not a water challenge, so NO swimming. Examples: Dew on a spider web, a child or dog playing in a sprinkler, water drops on flowers or other objects, beads of sweat on an athlete.
Nature	November-13	Curves	A photograph containing curves (a continuously bending line, without angles or any curved outline, form, thing, or part). Such as a curved section of a river, stream, plant or animal etc.
Pictorial	December-13	Reflections	Reflection of any kind.

TRISTATE PHOTOGRAPHIC SOCIETY COMPETITION CATEGORIES - 2014

<u>Pictorial (1st Meeting)</u>		<u>Month</u>	<u>Nature (2nd Meeting)</u>	
Open	Informal Prints	January	Patterns &/or Textures	Informal Prints
Unusual, Strange or Odd	Informal Prints	February	Open	Informal Prints
Open	<i>Formal</i> Prints	March	Frozen Water	Informal Prints
Triangles	Informal Prints	April	Animal Closeup(s)	Informal Prints
Open	Informal Prints	May	Open	<i>Formal</i> Prints

Topics for 2014 with Descriptions

P/N	2014	Topic	Description
Nature	January-14	Patterns &/or Textures	Any pattern or texture found in nature, including but not limited to rocks, sand, animal parts, clouds, etc. - both Flora & Fauna.
Pictorial	February-14	Unusual, strange or odd	Self explanatory
Nature	March-14	Frozen Water	Includes, but not limited to, Ice, snow, frost and/or icicles. Show us a solid state of water.
Pictorial	April-14	Triangles	Triangles in the landscape/cityscape etc. such as roof peaks, design elements of a building, portion(s) of food, a traffic sign or musical instrument etc. (NOT included - Triangles such as a triangular arrangement of 3 objects).
Nature	April-14	Animal Closeup(s)	Close up of any animal or part of an animal.
Pictorial	June-14	Mechanical Innards	Insides of any man-made device, including but not limited to tractors, engines, watches, clocks, computers, etc.
Nature	July-14	Weeds and Wildflowers	Any type of weed or wildflower is fine. A single plant or a field full of them is fine (Cultivated plants or fields are not included.)
Pictorial	August-14	Foggy Landscape	Self explanatory
Nature	August-14	Animals that can fly	Any animal that is capable of flight or has the ability to glide in the air. This includes but is not limited to birds, bats, insects, flying fish, flying squirrels, sugar gliders, etc. Subjects do NOT have to be in flight.
Pictorial	October-14	Friendship Park	An image taken at Theodore M. Berry Friendship Park. Note: Map & Directions will be provided.
Nature	November-14	Against the light	An image that shows backlight or a Silhouette.
Pictorial	December-14	Long Exposure Photography	Long-exposure photography involves using a shutter speed equal to or longer than 1/4 of a second. A Long exposure does not have to have blurred elements. For example, a 30 second shot of a city street at midnight may have everything in the frame in sharp focus. Or star trails among stationary tree or rocks, car light trails in a night cityscape, "silky" waterfall or stream.

Directions to Friendship Park

Located on 1135 Eastern Ave. Cincinnati

from the Campbell County Cooperative Extension Service Office (where we have our meetings)

Summary: 7.2 miles

1. Depart 3500 Alexandria Pike, Newport, KY 41076 [3500 Alexandria Pike, Newport, KY 41076] on US-27 [SR-1998] (North) 0.6 mi
2. Keep RIGHT onto I-471 5.8 mi
3. Entering Ohio
4. At exit 6A, turn RIGHT onto Ramp 153 yds
5. Keep LEFT to stay on Ramp 0.1 mi
6. Turn LEFT (South) onto E 3rd St 109 yds
7. Bear LEFT (South-East) onto Eggleston Ave, then immediately turn LEFT (North-East) onto US-50 TRUCK [US-52] 0.6 mi
8. Arrive 1135 Eastern Ave, Cincinnati, OH 45202 [1135 Eastern Ave, Cincinnati, OH 45202]
